Our Motto

Have you ever heard it said, “It’s all about the tools”? Well, this is Martelli’s motto. Our whole objective as a company is to make quilting tools not only fun and easy to use, but also accurate and simple. We are living in a day and age where quilting is not just the remaking of your grandmothers quilt where her purpose was to keep loved ones warm and cozy on cold nights. Those quilts were no doubt made with lots of love but they were still made to be practical (often from old scraps of family members well-worn clothes).

Today quilting has evolved to be an artform and practical. A quilt that makes a statement, a story-line, and design. What matters today is the time spent picking out the right fabrics, deciding on a great design, and making sure the quilt is created with precision and accuracy.

Martelli’s most important objective is to create new and innovative “tools of the trade” for quilters that will be the most ergonomic design possible. We want people to be quilting without experiencing the aches and pains that comes with normal quilting. So, developing new tools that prevent some of the medical conditions of the past by (using repetitive action when using the “old school tools”) has been one of our major concerns.

When Martelli goes to the drawing board to develop a new quilting tool- we want to make sure it is an ergonomically designed tool that makes a quilters beloved quilt project a dream come true. We want it to be a tool that is simple and easy to use, yet gives profound results. Of course, a tool without accuracy is nothing, so we make sure that our tool is one that helps enhance the quilter to do the precision work needed to make their quilt project a work of art. This is the very essence of what moves Martelli when creating quilting tools for the 21st Century.

We appreciate all our quilters who have used our quilting tools and we thank you for your encouragement and support. It is indeed “ALL ABOUT THE TOOLS”.

From the Editor:

INNOVATIVE INSPIRATION!

Tools are the key! You can read about it to the left under “Our Motto” or you can read about it in our previous issue’s “From the Editor” article. Where do the tools come from though? In our last issue, I talked about how my mother was the inspiration for so much of the innovation that started Martelli Enterprises; but the innovation we’ve become known for around the world arrives here from many sources. To be honest, I’ve lost track of just how many calls or emails we’ve received from Martelli customers with ideas for new products - especially in the template department. Thankfully we are able to bring these ideas to market more often than not.

Another source that provides “innovative inspiration” though- are Martelli’s very own employees! Later in this issue you can read about Gail Burke who runs our storefront and the wonderful new line of products she is working on. With Martelli, you have the ergonomic, efficient tools to create stunning quilts; now you will also have the project ideas to take your quilting acumen even further!

So tell me- what product ideas do you have? We love hearing from those who have a passion for growing this industry, but growing this industry isn’t accomplished by tools alone. Anytime I think about all the things a single quilt can accomplish- I’m truly humbled. A single quilt can help console the grieving widows and widowers of service members in their darkest hour. A single quilt can keep a stray animal warm after being stranded out in the shivering cold of a winter night. A single quilt can bring such joy to grandma’s face when she sees scraps of clothing quilted together that represent the oldest and youngest generations of her family. Instances such as these are why Martelli tries to make things more ergonomic and efficient for those who sew and quilt. The more efficient you are- the more you can create; and the more you create- the more joy you can bring into the world. The selflessness of creating a quilt for no reason other than to lighten someone’s day is what will make people take notice of this industry and the good it does in the world. That’s the kind of charity I wish to commend you for because Martelli customers both new and old are some of the the most giving and compassionate people I’ve ever met and I wouldn’t trade you for anything!

Love to you all,

Marsha
Do you have a problem with arthritis, carpal tunnel syndrome, tendonitis? Do you get hand fatigue or neck and arm pain while cutting for extended periods of time? If so, the Martelli Ergo Cutter is the only cutter for you! People hesitated when we first introduced a rotary cutter that looked so different. That’s because the Martelli Ergo Cutter is different, and revolutionary, in terms of the benefits of the ergonomic design. Holding the cutter in the proper position is essential to the successful use of our cutter. In the pictures to the left, notice how the forefinger curves over the top of the cutter and the thumb rests in the thumb guide. The cutter should rest in the palm of your hand with your remaining fingers wrapping over the grip. You will be using the palm of your hand to apply pressure, ultimately avoiding pressure to your wrist and fingers.

Replacement Blades

The finest quality, sharpest, and longest lasting blade on the market! Made from tungsten steel, our unique sharpening system has created a blade that is made for the long haul — blades that will last up to five times longer. Use properly with the Martelli Ergo Cutter and Cutting Mats for the longest life.

Heavy-Duty Cutting Mats

Made from the highest quality commercial grade material, our double-sided, color-contrast cutting mat is the most durable cutting mat on the market today with a self-healing surface that repairs itself—no more cuts on your surface to interfere with precise cuts. Designed for both right- and left-handed individuals. Double-sided for extra longevity, and has a dark and light side to show the contrast in colors of whatever project you are working on. Marked with 1/2” gridlines, 1/8” increments along the edge, and 45°/60° angles—with clearly detailed cutting graphics.

- **18” x 24” Cutting Mat**  
  MCM-18-24  
  **$89.99**

- **26” x 38” Cutting Mat**  
  MCM-26-38  
  **$149.99**

- **30” x 60” Cutting Mat**  
  MCM-30-60  
  **$249.99**

**Translucent Cutting Mat**

This 12" x 12" cutting mat is made of a translucent material so light it can shine through fabric for easy pattern tracing. Small enough for classroom use or anytime you need easy portability.

- **12” x 12” Translucent Cutting Mat**  
  MCM-12-12  
  **$29.99**

---

**The Perfect Cutting Companion:**

**Martelli 3-Piece Round-About Set**

Great for squaring up blocks. Simply spin the turntable the Cutting Mat on the Base to trim blocks—no need to lift the block. Place the Iron Top on the Round-About Base for a close-at-hand pressing surface. *Remove Cutting Mat prior to use of Iron Top.*

- **3 PC Round-About Set**  
  RA-03  
  **$129.99**

---

**16 3/4” Round Cutting Mat**

It is a different material than our commercial-grade mats, meaning that it is not self-healing and you can not iron on it. This is why we have the Round-About Ironing Top available for purchase. The mat has our get-a-grip material on the back side so you can use it with the base or in a stationary manner. It is also small enough to take with you on trips and use for classes.

- **Round-About Cutting Mat**  
  TM-17-R  
  **$49.99**

---

**26” x 38” TABLETOP IRONING PAD**

The perfect addition to our 26” x 38” Cutting Mat

Iron over a large surface area with confidence that no damage will be done to your cutting surface.

- **26” x 38” Tabletop Ironing Pad**  
  TTI-26-38  
  **$149.99**

---

**23” x 23” Tabletop Ironing Pad**  

- **$99.99**

Martelli Workstations

Premier  Advantage  Elite

With an adjustable height of 30” to 46” inches, our Workstations are flexible enough to accommodate sitting or standing. You will now be able to use rulers and rotary cutters comfortably for longer periods of time and with greater accuracy. Martelli Workstations are precision engineered for easy assembly and enduring performance. Built for strength and durability with a heavy-duty aluminum reinforced frame and smooth 3/4” thick polyethylene (HDPE) work surface and side panels. Electric motorized leg-lifts assure smooth and quiet operation.

Standard Features on all Workstation models:

- Industrial strength aluminum reinforced frame
- Commercial-grade, rubber locking wheels
- Legs made of non-corroding, lightweight aircraft quality aluminum with a smooth powder-coat finish
- Smooth, durable work surface and side panels made of 3/4” thick polyethylene (HDPE)
- Electronic leg lifts with control allow easy, height adjustment
- Durable, double sided, contrasting-color cutting mat

NEW PRODUCT

The Tablet Stand

- No-Slip bottom
- Clasp expands from 5.75”-10.5”
- HDPE base and column
- Height Adjustable
- Angle of tablet can be adjusted

Tablet Stand  TS-02  $79.99

Batting Rack  BR-01  $599.00

Embroidery Essentials
Custom Workstations and Accessories

**Custom MB4 and Babylock Workstations**

Designed after our Workstations, we have created a custom workstation for the MB4 and Babylock embroidery machines. We can custom make a table to fit most any model of embroidery machine, or any type of work table you can dream up. All of our tables are constructed of high density polyethylene (HDPE), industrial strength reinforced frame and commercial rubber wheels and of course, electric leg lifts. Perfect for home or commercial users.

Custom MB4 and Babylock Workstations starting at $3,499.99

---

**The Handy Stand Organizer**

Why keep your hoops and threads in different areas? With Martelli's Handy Stand Organizer you can assemble your threads and hoops in one spot, and as an added bonus— you can store up to 102 bobbins!

*HSO-03 $159.99*

- Comes with several dowels for multiple spool arrangements
- Holds several hoops and up to 102 bobbins!

---

Meet the redesigned **Martelli Light Box**!

The weight has been reduced and the light output has evened out.

The Martelli Light Box and Cutting Mat are the ideal tools for making accurate lines while tracing projects. Most other light boxes give you no guide to follow, but the Martelli Light Box comes with a 12"x12" translucent cutting mat, made with the same measurements as the larger cutting mats which accompany Martelli Workstations. The Martelli Lightbox now comes with suction feet to hold it firmly in place while you work on your projects.

**Martelli Light Box**  
**LB-02**  
**$89.99**

**Martelli LED Light Panel**  
**LP-02**  
**$49.99**  
(same light panel that is used in the Martelli Light Box)

---

**Embroidery Hoop Stand**

EHS-015  
**$124.99**

**EMBROIDERY HOOP STAND**

Organization without the fuss! Keep your hoops in the same spot every time with Martelli’s Hoop Stand - now built with a stylish frame for a classier look.
**Martelli No-Slip Strip Rulers**

*Cut with confidence through multiple layers of fabric at one time with no slipping or ruler movement as you cut!*

Our rulers are strong, yet flexible. The soft no-slip backing grips the fabric and holds it firmly underneath the ruler as you cut. The flexibility of our rulers helps keep the fabric in place by allowing you to press one end of the ruler while picking up the other end without creating a strong suction effect that disturbs the fabric. These rulers are perfect for cutting the bindings, borders, and strips for many quilt patterns. Available in several styles and lengths plus special order.

**NOTE:** Because of the necessary blade cutting depth, our strip rulers will only work properly with our Ergo Cutters!

Color of ruler materials may vary

---

#### 24" No-Slip Strip Ruler

This Strip Ruler allows you to cut accurate strips in multiple widths. You can cut bindings, borders, or strips for many quilt patterns like the Log Cabin. Designed for use with our Martelli Ergo Rotary Cutter. Slot length is 19". Choose from eight strip widths: 1/2", 3/4", 1 5/8", 2 1/4", 2 1/2", 2 5/8", and 3"

**24" Strip No Slip Ruler** STR-12-24-S $89.99

---

#### More sizes of our No-Slip Strip Rulers

- **24" Strip Ruler with .5" wide strips.** Slot length is 20".
  - STR-12-24-05 $129.99

- **24" Strip Ruler with 1" wide strips.** Slot length is 20".
  - STR-12-24-01 $129.99

- **28" Strip Ruler with 2" wide strips.** Slot length is 25".
  - STR-12-28-02 $129.99

- **36" Strip Ruler (17"x36") with 2.5" wide strips.** Slot length is 32".
  - STR-17-36-25 $129.99

- **24" Strip Ruler with 3" wide strips.** Slot length is 21.5".
  - STR-12-24-03 $129.99

- **32" Strip Ruler with 3.5" wide strips.** Slot length is 30".
  - STR-14-32-35 $129.99

- **44" Strip Ruler**
  Choose from eight strip widths: 1/2", 3/4", 1 5/8", 2 1/4", 2 1/2", 2 5/8", 3" & 3 1/4" Slot length is 40".
  - STR-44-05-S $119.99

- **32" JELLY ROLL Strip Ruler with multiple strip widths and slot lengths**
  - JR-32-10 $129.99

---

**NOTE:** When using your strip ruler for the first time: You will need to cut through the no-slip material with your rotary cutter. Place cutter in 1st slot and cut forward/backward. Repeat for each additional slot. Clean blade with alcohol if necessary.

- Need something special? Just give us a call at 850-433-1414. We will gladly make a ruler that meets your special sewing or crafting needs.

---

www.martellinotions.com 7
Just like our strip rulers, our straight rulers are backed with our exclusive No-Slip backing to give you complete control of your fabric.

Our Straight Rulers feature laser-cut measurements.

- Care for your no-slip backing on rulers and templates: No-Slip material MUST be kept free of dirt, thread, etc. Maintain by laying the sticky side of scotch tape on the no-slip surface then peel off. This will help restore its no-slip qualities.

Now you can hold your rulers and templates in place without the clutter!

**Angled Ruler**

with 45° or 60° Angle and .5” increments

- **12.5°**
  - Angle Ruler 45° | RT-085 | $24.99
  - Angle Ruler 60° | RT-087 | $34.99

* rulers, templates not included
No-Slip Templates and Fussy Cut Windows

Made of durable plastic, these templates are virtually indestructible. No more slipping, sliding or mis-cuts with Martelli no-slip templates. Our exclusive backing grips the fabric solidly and holds it firmly underneath the template as you cut. Turn the template as you cut around all sides and the fabric moves with it - there's no need to lift the template before you finish your cuts. Cut several layers of fabric at the same time.

No-Slip Square Templates and Fussy-Cut Windows

Templates includes 1/4" seam allowance.

Circle No-Slip Templates in SETS of four

Quarter circle templates backed with our exclusive non-slip material allows you to accurately cut multiple layers of fabric at one time. Simply fold fabric squares into fourths, place template in position along folds and cut. Turn the template and the fabric moves with it. No need to lift the template until all sides are cut. Pair these with the square templates shown above for cutting out accurate sized squares. Template includes 1/4" seam allowance.

*Bella Prima shown with optional QBOT from LiTen Up Technologies and optional tablet mount
Longarm Quilting Comes Home with The Bella Prima Longarm Machine Series!

**Bella Prima**
- 5 year warranty on mechanical parts
- 1 year warranty on electric parts
- 1 year warranty on in-store service

*SYNCHRONY Financing Available*
*Bella Prima shown with optional QBOT from LiTen Up Technologies and optional tablet mount*

Longarm training classes are provided with purchase

The Martelli Bella Prima Longarm Quilting Machine - Fit For You!
- Sit or stand - it's up to you with our exclusive electric leg lifts
- No braces or framework underneath the machine means freedom of access
- Machine may be placed near the wall because there is no need to walk behind or around it
- Standard frame length is 11 feet; but customization allows you to pick the frame length that best meets your space needs
- Talk to us about combining the longarm with one of our workstations to create a completely customized quilting experience

The servo motor makes this an incredibly powerful quilting machine!
- 21” throat by 11” height
- Powder-coat finish, more durable than paint
- Half inch heat-treated drive shaft
- Solid state commercial-grade electronics for long, productive use
- Ergonomic grip handles with adjustable positioning
- Engineered for easy maintenance
- Touch screen interface gives reliable performance
- 220 motor driver (includes a household adaptor)
- Touchscreen control head
- Three position LED lighting system featuring a black light setting
- LEDs under machine throat
- LED light strip under top rail

**Bella Stitch**
- Large M type bobbin with custom-fitted hook
- Manual or regulated sewing modes
- Range of useful stitch lengths
- Fast sensor reaction time for accurate stitch regulation
- Stitch regulator setting of 3 to 15 stitches per inch
- Basting stitch
- Easy up/down needle positioning
- Gear-driven bobbin for accurate, precise timing
- Patented Martelli Kwik-Spin Thread Dispenser built in to reduce breakage and tension problems
- Qbot Ver. 3 now available
The Frame - Our patented frame is the infrastructure
MADE IN THE USA

- Panels are engineered from high density material for incredible durability
- Patented, quick-release, spring-loaded poles for fabric source and uptake rollers
- This frame system—side panels and overhead rail—provides the suspension for your machine
- The first frame to be featuring electric leg lifts for combining adjustability with quiet, smooth operation
- Four-inch wheels allow for easy movement and positioning of frame: wheels lock solidly to keep frame in place
- Patented infinite adjustment clutch system means easy adjustment of fabric on the leaders
- Height adjustability allows operator to stand or sit • Frame is easily adjustable for wheelchair accessibility
- Adjustable height allows leveling on each side • High quality materials • Easy assembly and maintenance

Patented Overhead Rail System
- The overhead rail system is the keystone of the suspension and the infrastructure of our machine
- Features seamless precision-extruded, high quality aluminum beams
- This non-corroding, lightweight aluminum has smooth powder-coat finish
- The rails suspend the weight of the machine
- Eases operation and reduces stress on the operator for more time stitching
- Overhead rail suspension eliminates bulky tracks beneath your work area
- Replaces lower rails/belt systems with a convenient, practical alternative
- No worries about cleaning lower tracks and rails of dust and lint

Expand your creativity with the optional QBOT by LiTen Up Technologies and the Martelli Tablet Mount

AUTOMATE - Repeat your favorite freehand designs on all your quilts and never get tired
PROGRAM - You can program any design and the QBOT will stitch it onto your quilt.
RECORD - You can record your designs as you quilt and repeat them anywhere.
CREATE - Create quilts with consistent themes in no time
SCALE - Scale your design to fit anywhere
INSTALL - Attaches quickly to your sewing machine and frame
DESIGNS - Includes many designs at no charge. Many others available

QBOT is the new standard in computerized quilting. The QBOT and Tablet Mount turn your sewing machine into an automatic quilter!

The Longarm Tablet Mount

Itallic for “sit down,” the Sedere Model gives you the work output of a longarm machine without the need for standing
- Achieves the utility and benefits of our Workstations by using the same basic structure and materials
- A full 21-inch throat and 11-inch neck for lots of room
- Dual foot pedal for up/down needle function
- Broad, accessible work surface (48” x 48”)
- Adjustable height (30” to 46”)

*B SYNCHRONY Financing Available

Martelli Quilting Hoops are an essential addition to your sit down longarm!
- 8” & 11” Models -
Standing and Sit Down Models

Martelli Magnetic Longarm Leaders are the next wave of improvement to the longarm process. Eliminate time and effort with this easy solution, and get straight to the important part—stitching your quilt.

Perhaps you are an experienced longarm quilter, and the traditional ways of attaching the quilt to the leaders have always been a chore? Or maybe you're a newcomer to quilting, who wants to maximize your time making stitches? One thing all frame quilting has in common is the need for a secure and reliable way to attach quilts to a frame.

Martelli Magnetic Longarm Leaders combine the solution with powerful magnets to simplify the process and get you started quilting sooner.

Martelli Magnetic Longarm Leaders are a new design for quilt leaders for longarm or any frame quilting requiring leaders. Our leaders attach the three pieces of the quilt to the frame of your longarm machine or frame in a matter of minutes.

Here's how it works:
1) Attach magnetic anchor strips to your take-up, top-fabric, and bottom-fabric supply rollers.
2) Attach bottom fabric, batting, and top fabric to their respective rollers, using magnets.
3) Attach all of these components to the take-up roller, using magnets.
4) Adjust your fabric and start quilting.

The Quirky Quilter is back and now she'll be showing up on quilts in addition to t-shirts! You've taken great care and pride in the creation of your latest quilt and now you can put a final touch on your project that gives it that extra look of professionalism. Each 8.5" x 11" cotton satin fabric sheet contains four quilt patches for you to customize as needed for each quilt.

Mr. Hummingbird!

Martelli Enterprises is excited to be rolling out a new line of pattern products beginning with Mr. Hummingbird, who happened to be created by our very own Gail Burke! The self-identified "Crazy Quilter" runs our storefront during the school year so we decided to sit down for a little Q&A on her history in sewing and quilting!

Where were you born?
Wyoming, raised on cattle ranching and coon hunting.

Was quilting/sewing something your family did a lot of growing up?
With 9 girls in our family, sewing was a necessity and quilts were a staple in life. They were created as gifts for weddings, births, or as memory quilts. Having been taught by my mom, I learned to make/alter my own clothes- even to the point of helping the home-ec teacher when teaching machines.

How long have you been sewing and quilting?
I have been sewing and quilting for 23 years.

How did you come to work at Martelli Enterprises?
The first time I came to Martelli was for blue thread since I’d ran out of thread just 3 hours before a quilt was due to my customer and I wasn’t finished quilting. I didn’t think I could make it anywhere else and get back in time to finish the project- so I stopped at Martelli. I’ve been a customer ever since, and eventually, Val talked me into working here at the shop in Pensacola.

Gail Burke
Otherwise known as the Crazy Quilter at Martelli Enterprises!

Have you created pattern projects similar to Mr. Hummingbird before?
Yes- owls, rattlesnake, and a princess teddy bear riding a unicorn, just to name a few.

How do you approach a project once you have an idea or inspiration for a new design?
I listen. I listen to people and to the color combos that catch my eyes. Sometimes I will use an emotion to base a project on. A lot of times, I design my quilts based on the people for whom they are destined. This way I can add details that have meaning for the receiver. Perhaps my most rewarding quilts are those I created for the abused, neglected, etc… as this helps renew their faith in humanity.

My other favorite would be those I create for those with autism, as they have unique needs- usually textures, colors, patterns, etc. along with the need for a heavier quilt. It enriches my soul every time I see someone’s face brighten up upon receiving a quilt. This sensation applies especially with the parents of autistic children, when they receive these quilts they can put away any old, tattered blankets they were using before.
What are some of your favorite sewing and quilting techniques to use in projects?

For applique- I love raw edge applique, free motion quilting, thread painting, and anything that makes my quilts sparkle. This would include metallic/glitter threads, buttons, fancy stitches, sequins, beads etc... though anything “taller” than thread is generally reserved for wall quilts.

Do you have any particular techniques or projects you’d like to learn more about and experiment with in the future?

I’d love to learn more about working with and utilizing reclaimed fabrics. Especially in regards to wearable art like my favorite things- vests and bags.

What advice do you have for beginner quilters?

When things go wrong -and they will- the first thing to realize is that a lot of the problems we encounter are caused by us. When you get frustrated- just walk away. Once you’ve calmed down, re-approach the project and try to figure out first if you might have caused the problem. Go through the check list: threading, lint, and then needle. When your needle goes bad, you might not even realize it, and that’s the most frustrating thing possible. Don’t quilt/ sew when tired- this seems to be the times I made the most irreversible mistakes. Also, join a guild that you can talk to about any problems you may encounter. Get encouragement and learn from them. The support a group like that can offer is invaluable.

Mr. Hummingbird Quilt Pattern  

PAT-HUM-02  $19.99

*Includes directions and paper template of hummingbird. Finished hummingbird is roughly 30"x40".

*Martelli’s Dresden Plate and Circle Templates (not included) are suggested for use with flower.
Zip Bind System

The best tools for perfect hand binding!

You will love this set of gadgets for attaching bindings. Turn out perfect and consistent bindings every time with mitred corners that will impress the judges! Makes finishing a quilt fast, easy, and precise. The Zip Bind System is a hand binding system that consists of several tools:

- **Zip Guns** in three sizes (small, medium, large), pre-loaded with clips. The Zip Guns attach Zip Clips to quilt and binding.
- **Zip Clips** in three sizes. Reusable clips hold binding to the front of the quilt and leave no holes in your fabric. No more poked fingers or lost pins! Just slide clips off the quilt and reload them in the tool and you are ready to use it again.
- **Minute Miter tools** in three widths, 1 ¼", 1", and ½", slide onto the quilt and stay in place while you fold the binding into perfect shape.
- **Sew-Mate** is a combination tool; a seam ripper, thread cutter, and double-tipped stiletto to push or pull small pieces while sewing, or hold pieces in place while ironing.
- **Zip Bind Tool** is an adjustable clip that folds any size binding and holds it to the back of the quilt in the last step of the binding process.

**Zip Bind System**

<table>
<thead>

<th>ZB-03</th>
<th>$74.99</th>
</tr>
</thead>
</table>

“How To” Instructions will accompany the Zip Bind System

---

**Zip Bind Tool**

The Zip Bind Tool makes bindings perfect and consistent from end-to-end, side-to-side and front-to-back. With the Zip Bind Tool, there’s no need for even one straight pin and there’s no measuring involved! Not only is the Zip Bind System perfect for quilts, it works with anything that needs binding, clipping, mitering, etc. Sew your binding to your project, then clamp on the Zip Bind. Folds binding over edge evenly as you slide it along your quilt. Make perfect and consistent bindings from end-to-end, side-to-side.

**Zip Bind Tool**

| ZB-02 | $29.99 |

---

**Minute Miters**

These unique clips make perfect mitered corners fast and easy. If you struggle with getting your mitered corners to look like they belong together on the same quilt or project, then you’ll love our Minute Miters. Minute Miters will assist you in stitching perfectly bound corners.

---

What the experts and our customers have to say about the Minute Miter

Minute Miters make it incredibly easy to miter the corners of your quilt; before this product was introduced I really had to struggle to get my corners mitered correctly. Not anymore, it is wonderful!

- Liz McRoberts, Amazing Designs Educator
Martelli Enterprises’ Stitch-in-the-Ditch Binding System combines the look of hand binding with the practicality of machine binding. This special binding attachment holds your binding straight and even as you finish it. It allows binding widths from 1/4” to 1” and comes with six adapters to fit most sewing machines. The four fences allow you to bind anything from a garment to low, medium, and high loft fabrics. Using the fence to sew your folded binding on the front of your project guarantees a perfect and consistent seam allowance.

Don’t pin - Use the Martelli Zip Gun!

Say goodbye to pins! Whether sewing, quilting or crafting, our Zip Guns and clips are the easiest and fastest way to hold the edges of projects together. Reusable clips easily load back into the Zip Gun. Fabric layers are firmly held together until the clips are removed.

Tools that will soon become essential parts of your sewing basket or crafting tool box:

Sew-Mate  This multi-purpose tool pushes, pulls, holds, rips, tugs, lifts, and guides easily. Rips seams without ever making holes in your material because of its unique design. Use it to hold down seams or edges as you sew. Protects fingers from your needle or iron when used to hold seams or fabric edges in place.

Sew-Mate  SM-07  $14.99

Martelli Pinpoint Tweezers  PT-05  $8.99

Martelli Ergo Tweezers  ET-05  $8.99

Martelli Straight Tweezers  ST-05  $8.99

Needle Changer  NC-02  $3.99

Zip Guns available in 3 sizes. Eight reusable clips are included.

Small Zip Gun  ZG-08-S  $7.99
Medium Zip Gun  ZG-08-M  $8.99
Large Zip Gun  ZG-08-L  $9.99

Zip Gun Replacement Clips
Small replacement clips  RC-20-S  $1.99
Medium replacement clips  RC-20-M  $2.99
Large replacement clips  RC-20-L  $3.99

Warranty Information: There is a 1 year warranty on actuator/electrical components. There is a 10 year warranty on the Sewing Station. Warranties are voided upon improper use of table and/or table components (including, but not limited to: water damage to actuators/electrical components). A copy of the original receipt must be presented for warranty repair/replacement work.
Rubber finger tips, gloves, wrapped embroidery hoops, you name it. Just about everything has been used or suggested to make free motion quilting easier. No matter what advertisers say, most quilters have found nothing on the market today that makes free motion quilting any easier or less fattiguing. Most everything available to date requires an extreme amount of pressure of the hands and shoulders in order to keep the quilt moving freely while quilting.

At Martelli’s, we decided that a remedy was needed quickly to help combat the hazardous effects—carpal tunnel, aching shoulders, stiff necks—on the home dec and midrange long arm free motion quilters. If something wasn’t done soon we feared that many quilters would develop long term health issues, thus having to give up their favorite hobby. So we started with HDPE a light weight industrial plastic used for manufacturing many of our products. The 3/4” thick material is easy to clean, environmentally friendly, and has the felt needed without the weight. We also added easy to grip handles for not only comfort, but ease of maneuvering and to keep you hands away from the machine needle as you sew. But one last thing was needed to make the quilt hoop a success. We added our “no-slip” material to the bottom of the hoop. We have used this material on most of our rulers and templates and found it to be a success in the way it “grips” the fabric. In fact, many quilters have come to know about Martelli simply because of the no-slip material which become one of our companies’ trademarks.

Works with your home dec machines and stationary longarms.

One of Martelli’s newest creations is sure to take custom quilting to a new level of efficiency and production. We are talking about the Designer Hoops and Rulers Series. We decided to take the premise of our No-Slip Quilting Hoops and turn it into a fast and easy way of customizing quilt blocks. Watch a demo today by going to the Designer Hoops at www.martellinotions.com and clicking on any Designer Hoop or Ruler products in the store!
