Round-About Cover Directions

1. Cut a circle with a 20" diameter from any cotton or muslin fabric bolt
 2. Fold edge of circle and sew to make a 1/2" inch seam (.5") around perimeter
 3. Using an elastic wand or safety pin - guide a 28" elastic strip through seam loop
 4. Overlap ends of elastic strip by about 2" and sew the elastic strip so it is closed
 5. Assemble 15 1/2" (15.5") circle board, batting, and Round-About cover
- We recommend using Martelli's 20" circle template for accuracy and efficiency in step one.**
